Recommendation Letter

Dear potential donors,

I trust this letter finds you well. As a member and the President of Rotary Club Lviv International, I am writing to share my sincere endorsement for the commendable Mobile Clinic project. From its inception, I have closely followed the big efforts of Lars Vestbjerg and Jakob Dalhoff in spearheading this initiative to provide crucial medical assistance to the people of Ukraine. Their dedication and commitment to this project have been truly inspiring.

As the project has evolved, it has been engaging the more and more our Rotary Club members and sister clubs, transforming this initiative into a truly impactful. Presently, it stands as one of the most significant Rotary projects undertaken here in Ukraine. A cooperation on a level of Ministry of Health is set up.

What has particularly inspired us is the global support received from our Rotary friends worldwide, contributing essential funds to this noble mission. The Mobile Clinic project, detailed at mobile-clinic.com.ua/, has already positively impacted thousands of lives.

While celebrating the successes achieved, it is essential to acknowledge that there are still thousands in Ukraine without access to even the most basic healthcare services. The Mobile Clinic has made a tremendous difference, but there is much work yet to be done. Unfortunately, the war has not ended and every day a medical infrastructure in Ukraine suffers from Russian attacks. We do hope that you will consider supporting this vital mission. Together, we have the power to make a meaningful and lasting impact on the lives of those in need.

I believe this truly corresponds to the Rotarian motto "Service above yourself". Your generosity and support will not only contribute to the success of the Mobile Clinic project but will also be a testament to the values which defines our global Rotary community.

**President of RC Lviv
International**

Oksana Petrukh
